

# Capacity Development Programme & Circular Economy Mission

**Dr Rachna Arora**

**April 4, 2018**

**Goa**

# Objectives of the Capacity Development Programme

- Capacity development for Government officials (Senior & middle management level) to oversee and steer the implementation of the RE strategy in the key sectors
- Mainstreaming of RE for the convergence of the GoI schemes and programmes like Make in India, Swach Bharat and Zero Defect, Zero Effect within different ministries.
- The programme will enable key departments to develop actions and programmes which promote life cycle thinking and interventions across stages, relevant to their sectors and framework conditions

# Processes and Steps

Needs Assessment of Key departments

Assessment of Training methodology and manpower requirements

Identifying training institutions & key experts

Revision of Course Modules & Toolkit (EU-REI has already prepared a Toolkit for regional RE workshops)

Assessment of Fund Requirements for 3 year programme from GoI

# Modes of Delivery

- The capacity development programme can be tailor made training needs to be catered for the selected nodal officials of the inter-departmental committee on RE and circular economy
- National programme to be hosted by Indian Institute of Public Administration (IIPA), New Delhi under the Niti Aayog's SAMAVESH programme (option 1). Regional programmes can be coordinated by SAMAVESH members.
- Combination of didactical tools, exposure visits, site visits to industries and case studies
- International exposure visit can be organized (once/ year) under the EU – REI project as per the project budget

- Training toolkit comprises of:
  - Concept and approaches on RE and CE, indicators and targets, policy approaches
  - Best environmental practices and available techniques - overview on policy tools and technical instruments to develop and achieve RE
  - Systems and organizations - insights into existing national RE programs of other countries
  - Objectives and instruments to support the implementation of the RE program
  - Methodological tools and business case studies from India and other countries

## Upcoming events

- **Circular Economy Missions** – organized by the EU-REI project for business partnerships between EU-India businesses on RE (New Delhi, September 2018)
- **World Circular Economy forum** – Japan – organized by SITRA and Environment Ministry of Japan towards knowledge exchange on RE and CE as the G 20 Presidency (October 2018)
- **European Resources Forum – Berlin, Germany** – organized by German Environmental Agency (UBA) during November 2018

# Circular Economy Mission to India

# Objectives of CEM

- To increase cooperation between the EU and third countries in the field of environmental policy.
- To achieve a better understanding of the environmental challenges faced by third countries.
- To promote green solutions through business partnerships abroad.

# Past Missions

- South Africa – May 2017
- China – November 2016
- Chile – April 2016

# About CEM to India

- Aim of the mission is to create awareness amongst relevant Indian businesses about circular economy and mobilize demand creation and sensitize businesses
- CII will host CEM and help in creating awareness
- The following sectors (illustrative) are planned to focus in the CEM:
  - Waste (plastics, construction, e-waste)
  - Chemicals
  - Renewable energy (solar panels, biomass)
  - Mobility (e-vehicles)
  - Construction
  - Others

# Activities planned

- Raise awareness: communicate and promote CEM among businesses which could spread the word on circular economy, and specifically build momentum for CEM
- Assess needs for RE / CE of Indian businesses
  - Reach out to Indian businesses with a detailed needs assessment questionnaire and solicit responses

# Activities planned

- Bridge demand and supply of solutions
- CII to host CEM at the 13th Sustainability Summit
- The theme for the 13th Sustainability Summit is Everyone's Future. The Summit is scheduled on 6-7 September 2018 that will present captivating insights that inspire innovation and action for sustainability
- On 7 September 2018, full-day conference and B2B meetings between Indian and European businesses
- B2B networking will provide businesses and investors to identify collaborations for technology exchange and create business opportunities
- Close to 80 European delegates expected to participate

# Next steps

We will reach out to you with the questionnaire to understand your needs

We invite you to engage and signal your interest
