

# CIRCULEAD

Learn how the CircuLead Cohort is leading the charge in circular economy innovations!

**AgriVijay**<sup>®</sup>  
Empowering Farmers for Tomorrow

## **AGRIVIJAY** [agrivijay.com](https://agrivijay.com)

---

AgriVijay is the country's first marketplace for renewable energy products, offering a one-stop solution for solar, biogas, thermal, wind, and electric innovations to farmer communities across India. They're on a mission to help rural households reduce emissions, become energy independent, and achieve financial empowerment.

  
KULA

## **KULA STUDIO** [kulastudio.in](https://kulastudio.in)

---

Kula Studios is a sustainable fashion brand committed to combating waste and promoting climate action through circular fashion solutions. This enterprise is empowering individuals to adopt conscious fashion practices by offering upcycling services right at your doorstep via their user-friendly website.

## **HUMBLE BEE** [thehumblebee.co](https://thehumblebee.co)

---

Humble Bee is an initiative dedicated to bee conservation and empowering small-beekeepers in India. Their AI-powered mobile application serves as a comprehensive learning companion for beekeepers, emphasizing the significance of resource efficiency and ecological balance.

## **CRAFTPOTLI** [craftpotli.com](https://craftpotli.com)

---

Craftpotli is a platform committed to showcasing handcrafted products from tribal clusters, preserving heritage and enhancing financial independence for tribal communities in the country. Craft Potli operates with low-volume, responsible production techniques and employs local, zero-waste logistics.

## LITTLE SHARERS [little-sharers.com](http://little-sharers.com)

---

Knowing how quickly children outgrow their belongings and interests, Little Sharers' commission-free mobile app encourages and caregivers to buy and sell preloved children's items. Little Sharers strives to extend the life of children's products, reduce landfill waste, and promote responsible consumption.

**mahinsure**<sup>®</sup>  
EXPERIENCE THE COMFORTNESS

## MAHINSURE [mahinsure.in](http://mahinsure.in)

---

Mahinsure's organic bamboo sanitary pads are designed for comfort and sustainability. Made with biodegradable components, these pads break down and compost in just 152 days, reducing environmental impact. Mahinsure also uses disposable packaging that aid in pollution reduction and waste separation.

## SAVING GRAINS [savinggrains.in](https://savinggrains.in)

---

Saving Grains is at the forefront of sustainable micro-upcycling kitchen models, capturing waste streams to create delicious and functional products while fostering community involvement. Their innovative approach transforms brewers' spent grain into nutritious flour, cookies, and snacks, contributing to resource efficiency and circular systems.

## UPCICLO [upciclo.com](https://upciclo.com)

---

Upciclo is leading the way in corporate gifting solutions with a commitment to social and environmental impact. Their unique approach allow businesses to select upcycled and eco-friendly gift alternatives that have a positive effect on carbon footprints, tree preservation, and emissions reduction.

## REVY ENVIRONMENTAL SOLUTIONS [revy.co.in](http://revy.co.in)

---

REVY Environmental Solutions provides consulting and sustainable solutions for industries, companies, residential areas, hotels, schools, and college campuses. With expertise in anaerobic digestion and bio-methane production, REVY excels in transforming waste into re-usable resources, making a significant impact on environmental sustainability.

## PARIPATRAM SOLUTIONS

---

Paripatram Solutions provides training, infrastructure development, polygon mapping, mobilization of the informal sector, awareness campaigns, strategy development, and thought leadership to drive sustainable waste management practices across India's industries.

## **GRAAMM MEDIFLEET** [medifleet.co.in](https://medifleet.co.in)

Graamm Medifleet is on its way to make India's pharmaceutical supply chain and logistics more efficient, eco-friendly, and accessible with their innovative mobility solutions, optimized routes, and customer-centric approach.

## **NARIKSHA PADS** [Nariksha.com](https://Nariksha.com)

Nariksha Pads is on a mission to combat environmental pollution and enhance women's health and hygiene in India. By offering innovative biodegradable sanitary pads crafted from agricultural waste, they are reducing emissions, addressing plastic waste, and providing a safe and eco-friendly menstrual hygiene solution.

## **MYPLAN8** [myplan8.earth](https://myplan8.earth)

MyPlan8's innovative app empowers users to calculate and reduce their carbon footprint while incentivizing eco-friendly behaviors through a reward-based system, bridging the gap between individuals and the opportunity to create a greener world.

**baesic**

## **BAESIC PERIOD CARE** [meetbaesic.com](https://meetbaesic.com)

Baesic Period Care offers organic, rash-free sanitary pads that promote women's health and well-being while minimizing environmental footprint. Their commitment to sustainability and resource efficiency is evident through their choice in organic and biodegradable materials.
